Subject Docket No. AB-6 (Sub. No. 413X)

Christa Dean,

I'm Mike Appel, Environmental Justice Coordinator for the Natural Resources Conservation Service in Minnesota. I have reviewed the proposed abandonment of the BNSF railway of .99 miles in the city of Stillwater, Minnesota. Based on the information presented, I feel that no adverse effect on the environment will result from government actions. In addition, no prime agricultural land will be affected or impacted. I apologize for the late response. I initially thought it was a FPPA request and forwarded it to Washington County.
